PHOTO SERIES EXAMPLE

Child First Name: Isaac

Child's Age: 4.11

Location: Outdoor Obstacle Course

Date of Observation: 04/07/2019

Balancing on the tyres

Over the A frame

Up & Down on the seesaw

Under the commando net

Big jump off the plank
into the foam pit

COMPLETED!
GREAT JOB ISAAC

An obstacle course was set up in the outdoor environment. Isaac was so excited to see it and eager to begin his assault in earnest. He made his way through the many obstacles that presented physical challenges of balance, coordination, strength, agility, and measured risks. Isaac's persisted with the challenges that faced him his first-time round, getting to know the course and how to conquer it. Even when he was not successful, he would try a different tactic to complete each component of this obstacle course. After a few attempts Isaac was successful at completing the obstacle course from start to finish. And what a sense of achievement Isaac felt once he had completed the course "How good am I as a Ninja Warrior". Isaac is developing a range of skills and processes such as problem solving, hypothesising, and investigating ways to successfully complete the obstacle course.

EXTENSION OF LEARNING: Offering Isaac a range of loose parts and ample space for him to design and develop his own Ninja Warrior course.
