<b>Annexures</b>	Nil
<b>File Number</b>	\\OFFICIAL RECORDS LIBRARY\CORPORATE MANAGEMENT\PLANNING\INTEGRATED PLANNING AND REPORTING 2020-2021 - 1126531

**RECOMMENDATION**

THAT Council note:

1. There were nil submissions received in relation to the draft 2020/2021 IP&R documentation; and
2. The maximum interest rate payable on overdue rates and charges determined in accordance with section 566(3) of the Act, detailed in the report.

**DEPARTMENT LEADER - GOVERNANCE & CORPORATE PERFORMANCE'S REPORT**

In accordance with the Local Government Act 1993, council's draft 2020/2021 Budget, Fees and Charges and Operational Plan were placed on public exhibition for 28 days from 4 May until 31 May 2020.

There was an advertising campaign which informed the community of the public exhibition of the documents and invited comments.

There were nil submissions received in relation to the Integrated Planning & Reporting 2020/21 documentation.

The Office of Local Government have advised in Circular 20-19 issued on 26 May 2020 that there is a change to the maximum interest rate that can be charged on overdue rates and charges.

In accordance with section 566(3) of the Act, it has been determined that the maximum rate of interest payable on overdue rates and charges for the period 1 July 2020 to 31 December 2020 (inclusive) will be 0.0% per annum and that the maximum rate of interest payable on overdue rates and charges for the period 1 January 2021 to 30 June 2021 (inclusive) will be 7.0% per annum.

The interest rate has been set at 0.0% for the first half of the 2020/21 financial year in response to the financial impacts faced by the community as a result of the COVID-19 Pandemic.

Councils draft IP&R documentation will be changed in accordance.

<b>Annexures</b>	1. Cumnock Township - Petition re Floodplain Management↓
<b>File Number</b>	\\OFFICIAL RECORDS LIBRARY\SEWERAGE AND DRAINAGE\REPORTING\FLOODS - 1126575

### **RECOMMENDATION**

THAT Council:

1. Receive the Cumnock Floodplain Management Petition
2. Write to the lead petitioner advising that the petition has been accepted in accordance with Council's Draft Petition Operational Policy
3. Call for a future report to be presented on Cumnock Township Floodplain Management

### **DEPUTY GENERAL MANAGER CABONNE INFRASTRUCTURE'S REPORT**

#### **Background**

Cabonne Council has received a petition from the Cumnock Community seeking Council action to prevent further flooding within the township.

The petition, received by Council on 13 May 2020, contains 118 signatures.

Of note, the petition was noted as a submission to the Molong Floodplain Management Advisory Committee terms of reference public exhibition. Given the uniqueness of the two townships, it is appropriate to consider both separately.

#### **Petitions Policy**

Previously, receiving of policies by Council was contained with the Code of Meeting Practice, however, recent editions of the model Code from the Office of Local Government have omitted this matter.

A draft operational policy has been developed in consideration of this omission from the code. The draft policy contains guidelines of appropriateness of submissions, and the form a petition must take to be received.

This draft policy has been applied in receiving this petition relating to floodplain management of Cumnock township.

The petition received is generally in accordance with the standard of submission required within Council's operational policy.

### **Cumnock Floodplain Management**

Receiving the petition at this stage is an acknowledgement of lodgement, and at this stage, a future report will be tabled detailing the options to Council to consider the intent of the petition.

The petition itself requests Council to address the issue, however it is not specific in what the community would like to see, or how it would be achieved. By receiving a future report on the matter, further data and investigation can provide guidance with relation to flooding in Cumnock.

Attention: Bradley Burns  
General Manager

Dear Sir, I read with interest Cabonne Council Public Notice: Terms of Reference Molong Flood Plain Risk Management Advisory Committee. Considering the shocking storm Cummoock received on 25th March 2020, I have taken the opportunity to raise a petition among the locals to try and achieve some positive action, to be accomplished, to try and prevent or reduce the terrible effects, of the aftermath, experienced by several residents.

Talking to many of the locals during the period of collecting signatures, I learnt of all their own experiences: many losing fencing, others with water risk to antiques, and others their homes invaded by the storm. So I enclose signatures and many photos of the event.

I would like to add, that I think it would be a great idea for the community to get together with Council members, to tell of their own stories, of fields covered in

PTO

flooding waters, that covered the roads,  
and took with it, too much debris,  
including trees, logs and even cars!  
At the meeting, they could advise  
where the water came from, and  
where it ended up!

This story of flooding has gone on for more  
than 100 years, with nothing efficient  
ever being achieved.

We would be very grateful if  
something could be finally done!

Regards

Viviana Amue

25<sup>th</sup> March 2020 is the day that will remain ingrained in my mind for a long time.

5.15pm, I was tossing up, wether to keep weeding or give up because of the light shower we were experiencing.

By 5.30pm, I gave up!

The rain started to increase very quickly!

And I did my usual running from inside the back of the house, checking the flow of water outside the grandchildren's window, to the front bedroom window, checking how high the water was flowing down the "stormwater ditch", and how far back it had backed up at my neighbours driveway!

By this time the water was coming into the bathroom and the grandchildren's bedroom!

Then the septic tank alarm went off.

Unable to switch it off, wading in water that was now pouring into my gumboots, Jack Christie, our SES local arrived and advised me how.

At this point, my gaze wondered from my already flooded garden, across to my neighbours, I had never seen it flooded like that!

And then I realised her new neighbour was unaware that he needed to remove a panel from the aluminium fence, to allow the freeflow of the water, which was now backing up quickly!

I ran over to their house, to let them know!

By the time I returned to my house, SES had returned, and enquired if I was staying or leaving. Adamantly I advised I was staying!

But by the time I walked inside, I realised that was a big mistake!

400 MLS of water had invaded the inside, and my house was now uninhabitable!

I had to leave! I grabbed an overnight bag and had to leave my home!

The time was now 7.30pm!
