## Making Margin on Marginal Country Sustainably

### Saturday 9th November

#### Making Margin on Marginal Country SUSTAINABLY

**Saturday 9<sup>th</sup> November 2019**

*An on-farm demonstration of how incorporating Compost, Tropical Pastures and Aussie White Sheep has transformed the productivity and profitability of very marginal country.*

**Guest Speaker: Graham Gilmore**  
Founder of the Aussie White Sheep

#### Making Margin on Marginal Country SUSTAINABLY

- ☐ What do you do when your soils are;
  - Very sandy granite loams?
  - Low pH?
  - Low fertility?
  - Low trace minerals?
  - Low carbon?
  - High Aluminium?
  - Poor pastures?

- ☐ What do you do when nothing is really working, when productivity is low, when profit is non-existent?

- ☐ What do you do with that block down the back that doesn't usually do much?

## RED JOAN

### INSPIRED BY TRUE EVENTS

In a picturesque village in England, Joan Stanley, lives in contented retirement. Then suddenly her tranquil existence is shattered as she's shockingly arrested by MI5. For Joan has been hiding an incredible past, she is one of the most influential spies in living history. Cambridge University in the 1930s, and the young Joan, a demure physics student, falls intensely in love with a seductively attractive Russian saboteur, Leo. Through him, she begins to see that the world is on a knife-edge and perhaps must be saved from itself in the race to military supremacy. Post-war and now working at a top secret nuclear research facility, Joan is confronted with the impossible: Would you betray your country and your loved ones, if it meant saving them? What price would you pay for peace? Inspired by an extraordinary true story, Red Joan is the taut and emotional discovery of one woman's sacrifice in the face of incredible circumstances. A woman to whom we perhaps all owe our freedom.
