## MESSAGE FROM THE MAYOR

---

On behalf of the members of the communities of Cabonne Council, I am pleased to present this Delivery Program as part of the Integrated Planning and Reporting framework.

Previously the Cabonne Community came together and developed the Community Strategic Plan – Cabonne 2025. This is the community's plan and will guide the development of Cabonne Council until 2025. To make it happen all sectors across our community will need to work together. Obviously a key community player is the council but Council alone cannot do everything.

There are a number of key plans lined together to achieve the community aspirations outlined in the Community Strategic Plan. They are:

- The Community Strategic Plan
- Council's 3 year Delivery Program
- Council's 1 year Operational Plan
- Council's Assets, Finance and Workforce Plans

The Delivery Program deals with the actions and tasks where Council has a role to play and identifies what we plan to do over the next three year to help achieve the community's vision for Council. The plan shows the varied actions Council undertakes and how we will measure progress, it also identifies Council's role in achieving each measure.

Further information on this plan can be obtained by contacting Council's Director of Finance and Corporate Services, Luke Taberner at [council@cabonne.nsw.gov.au](mailto:council@cabonne.nsw.gov.au) or by phoning (02) 6392 3222.

## WHAT IS A DELIVERY PROGRAM

---

The Delivery Program 2018–2021 is one layer of the Planning and Reporting framework that all NSW Councils must develop to meet the requirements of the Local Government Amendment (Planning and Reporting) Act 2009. It outlines the work Council can do to achieve Future Directions outlined by the community in the Community Strategic Plan.

The three tiered planning process ensures that there are clear links between the long term goals of the community and the activities of Council. The diagram below demonstrates their linkages:

---

## **CABONNE'S DELIVERY PROGRAM**

Cabonne's Delivery Program has been summarised into an easy to read table that will enable the integration of all planning documents.

The design of each table is based on the following:

## **RESOURCING STRATEGY**

---

As part of the Integrated Planning and Reporting framework councils are also required to develop **resourcing plans** that support the achievement of activities and tasks within the Delivery and Operational Plan.

These plans include:

### **1. Long Term Financial Plan**

The Long Term Financial Plan is an important part of council's strategic planning process. This is the point where long term community aspirations and goals are tested against financial realities. It is also where Council and the community may decide what resources councils need to influence and work with other parties so that they might deliver on responsibilities.

### **2. Asset Management Plans**

The Asset Management Policy is a council endorsed policy which sets the broad framework for undertaking asset management in a structured and coordinated way. It outlines why and how asset management will be undertaken. It provides a clear direction for asset management and defines key principles that underpin asset management for the council.

### **3. Workforce Management Plan**

An effective workforce strategy aims to provide Council with the people best able to inform its strategic direction, develop innovative approaches to complex issues and deliver appropriate services effectively and efficiently.

---

## **COUNCIL'S ROLE IN DELIVERY PLAN**

---

The Community Strategic Plan is for the whole Cabonne Shire and Council are unable to deliver all of the strategic outcomes. Council will be able to contribute where there is a role. Broadly speaking, Council has four roles:

- **Provider** – it does all the work
- **Regulator** – It undertakes its regulatory responsibilities
- **Facilitator** – It will help out or work with others to get things done
- **Advocator** – It will speak up for and support community initiative or issue
